### **“Recent Sculpture” by Thaddeus Mosley Karma Los Angeles**

Few artists evoke place as intimately as Thaddeus Mosley, whose hand-carved woodworks are made entirely from the felled trees of his native Pennsylvania. His work is occasionally biomorphic and always surprising. Recently, New York had the chance to view the wooden objects at Karma’s “Recent Sculpture” exhibition. The show is now hitting the road and traveling to Los Angeles for a second stop. “Recent Sculpture” will be on view from July 15 to September 9, 2023 at Karma in Los Angeles.
